Bio

My name is Alex and I am the owner of Virtual Alex, virtual client services and project management. I have been working in the entrepreneurial, small business, and corporate world for over 30 years. Throughout those years, I have had the opportunity to work with and get to know hundreds of individuals, each and every one with their own distinct life. I listen to their paths and stories and you just can't deny how unique everyone really is. What makes one person tic is so different from the other.

My vision is to help my clients start their own path into business. Building your unique company from the ground up requires a rock-solid foundation. Let's work together to properly place those building blocks so that as your business grows and flourishes, you'll be confident you took all the necessary steps in the beginning.

I am excited to assist in your journey! Together, the possibilities are endless.

Personal: I live in Tucson, Arizona and absolutely love it! I started Virtual Alex in 2015. In my spare time, I enjoy running, hiking, cycling, reading, and traveling.
